

One data. Multiple representations

Pre-configure your financial reports with Beyontec Financial Analytical Accelerator. A must for insurance CFOs looking for multi-dimensional reports, this simple plug-in can be quickly integrated with your financial system.

Accurate, actionable and timely financial reports are extremely crucial for regulatory and boardroom needs. With Beyontec Financial Analytical Accelerator you can turn your financial data into highly configurable and actionable balance sheets, profit and loss statements and profitability reports. Financial Analytical Accelerator allows you to configure your financial data and reports just one time, for different audiences, based on specific data requirements, and re-use these reports based on the periodicity of the need.

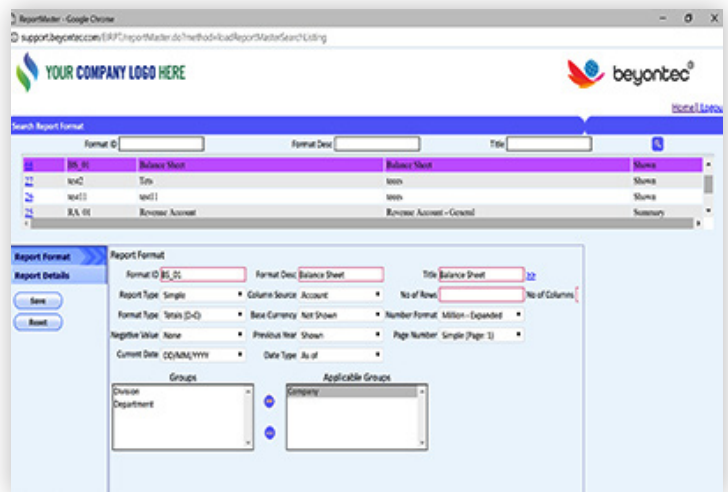

No more time and effort needed in additional reporting tools or modifying your existing systems or reports.

In short, you can choose the way you want to represent your financial data, be it adhoc reports and analysis or specific reports as required by regulators and the company board.

WIN-WIN FEATURES

Financial Analytical Accelerator enables you to:

- Organize your reports by group accounts
- Make use of arithmetical calculations and equation functions
- Run a comparative analysis of the current year and previous year values
- Format output as per your needs
- Generate reports in simple-linear or cross-tab formats
- Export reports to PDF or Excel formats
- Configure once and re-use reports for different audience

WHAT YOU GET

- Pre-configured view of your financial data
- Option to configure dynamic reports just once and re-use them periodically
- Customize and generate specific reports for regulators and the boardroom
- Enables you to make confident business decisions
- Move up from plain data to insightful data
- Go beyond the one-size-fits-all financial reporting

Beyontec Financial Analytical Accelerator is a must-have for any insurance CFO or accounting department looking to comply, predict, harness and enhance their business decisions with financial data and reports. Developed by Beyontec Solutions, a global insurance solution provider, these accelerators can accommodate the dynamic, statutory and regulatory reporting needs of the industry, and can be fully-integrated with any financial system.

WHY ACCELERATORS?

Beyontec accelerators are tailor-made solutions that fulfill specific IT and business needs not addressed by existing insurance systems. They can be easily integrated in to any existing system, to enhance the core functionality and efficiency. They optimize the use of new age technologies and help insurers significantly save on total IT spends while improving overall time-to-market, performance and giving them a distinct advantage over competition.
