

December 2016

Beyontec demonstrated its new Claims Recovery Portal to the Emirates Insurance Association (EIA) on 15th December 2016. More than 100 senior delegates from more than 40 leading insurance companies in the UAE participated in the demo. Mr. Ramez Abou Zaid — President of the Motor Insurance & Legal Affairs Technical Committee and General Manager of Dubai National Insurance & Reinsurance — led the presentation. He briefed the audience on the benefits of the new portal, and invited the Beyontec team to demo the functionality of the portal to the delegates.

The Claims Recovery Portal is an online, workflow-driven platform that collects all requisite motor claims information in a centralized database and makes it accessible to insurance companies, garages, car rental companies, surveyors, and other pertinent parties. The Portal will reduce the time and cost associated with settling claims and moving to a paperless environment.

Mr. Vivek Sethia, Director of Beyontec, and Mr. Sabarinathan, Vice President, Sales & Client Services, Beyontec MEA, anchored the demo.
